SIGNING A CONTRACT FOR THE INSTALLATION OF WATER VENDING MACHINES

The Vice Chancellor of Tumaini University Makumira, Rev. Prof. Dr. Faustin Leonard Mahali and Prof. David Lee of K-World, South Korea, signed a Contract for the Installation of Water Vending Machines for Affordable and Safe Drinking Water on January 6, 2026, at Tumaini University Makumira.

Apart from providing affordable and safe drinking water, water vending machines offer convenience and significantly reduce plastic waste. This makes them key for

public health and cost savings in homes, businesses, and communities, especially where clean water is scarce.
